Colored and white plaster Pool Interior Finishes are composed of materials which may have inherent shading and/or color variation which is normal and should not be construed as a defect. Due to environmental factors such as humidity, temperature, etc., during the installation process, normal color variation within a surface coating, also called normal mottling, which is generally uniform shading, blotchy or cloudy appearance across the surface of a cementitious surface coating may appear, this is out of the contractors' and manufacturers' control.
